RE: FFY 2008-2011 Revised Statewide Transportation Improvement Program

Dear Mr. McDade:

Attached you will find 6 copies of Maine's Revised FFY 2008 -2011 Statewide Transportation Improvement Program (STIP) as required by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) for participation in these federal aid programs. In addition, copies of the STIP have been sent to Mr. Donald Cooke at the U. S. Environmental Agency (EPA). This STIP meets all requirements of 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304 and is consistent with the Department's 20 Year Statewide Transportation Plan.

All transportation projects included in the Metropolitan Planning Organizations' Transportation Plan (TIP) have been incorporated directly as part of the Department's STIP and have been approved by those MPOs. The MaineDOT and the MPO self-certifications are attached.

The Clean Air Conformity Analysis in accordance with the Section 176(c) of the Clean Air Act as amended in 1990 has been forwarded to all parties under separate cover for their review. The Department finds the analysis consistent with the conformity criteria published in 40 CFR parts 51 and 93 issued on November 24, 1993, as amended on November 14, 1995, and September 15, 1997. The analysis demonstrates conformity with the State Implementation Plan in all of Maine's maintenance areas according to the methods prescribed by the current Federal guidance.

A Notice of Availability for review and comment was published in four major newspapers on September 3, 2007. Copies of this STIP were also sent to each Federal agency noted above and the four MPOs. Draft copies of the STIP were also made available on the Department's Internet Web-Site for public review and comment. Users of public transit were afforded opportunities to comment on all public transit projects through the development of the Department's Biennial Operations Plan (BOP) process. Although the Department has received

PRINTED ON RECYCLED PAPER
THE MAINE DEPARMENT OF TRANSPORTATION IS AN AFFIRMATIVE ACTION - EQUAL OPPORTUNITY EMPLOYER

no comments from the public the Department has addressed and corrected, as necessary, all Draft STIP review comments from the FHWA and FTA.

The Department understands that FHWA, FTA and the EPA will be coordinating a joint approval of Maine's proposed FFY 2008-2011 STIP. We request your approval of the STIP at your earliest convenience. If you require any additional information, please contact, Dale Doughty, Acting Director, Bureau of Planning at (207) 624- 3300.

Sincerely,

Dale F. Doughty

STATEWIDE TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION
(To be submitted with Statewide Transportation Improvement Program)

The Maine Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and is being carried out in accordance with the following requirements:

I. 49 U.S.C. Section 5323(k) and 23 U.S.C. 134;

II. Title VI of the Civil Rights Act of 1964 and Title VI Assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794;

III. Section 1101 of the Transportation Equity Act for the 21st Century (Pub. L. 105-178) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded project (Sec. 105(f), Pub.L. 97-424, 96 Stat. 2100, 49 CFR part 23);

IV. The provision of the Americans With Disabilities Act of 1990 (Pub.L.101-336, 104 Stat. 327, as amended) and the U.S. DOT implementing regulation;

V. The provision of 49 CFR part 20 regarding restrictions on influencing certain activities; and

VI. Sections 174 and 176(c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506(c) and (d)).

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

The Metropolitan Planning Organization for the Lewiston, Auburn Lisbon and Sabattus urbanized area(s), the Androscoggin Transportation Resource Center (ATRC), hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

I. 49 U.S.C. Section 5323(k) and 23 U.S.C. 134;
II. Sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
III. Title VI of the Civil Rights Act of 1964, as amended and 49 CFR part 21;
IV. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
V. Section 1101(b) of the SAFETEA-LU(Pub. L. 109 -59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
VI. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
VII. The provision of the Americans With Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
VIII. The Older Amaericans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
IX. Section 324 of title 23 U.S.C. regarding the prohibition based on gender; and
X. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Don Craig, Director
Androscoggin Transportation Resource Center

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

The Bangor Area Comprehensive Transportation System (BACTS), Metropolitan Planning Organization for the greater Bangor Maine urbanized area hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

I. 49 U.S.C. Section 5323(k) and 23 U.S.C. 134;

II. Title VI of the Civil Rights Act of 1964, as amended and 49 CFR part 21;

III. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;

IV. Section 1101(b) of the SAFETEA-LU(Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;

V. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

VI. The provision of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27,37, and 38;

VII. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;

VIII. Section 324 of title 23 U.S.C. regarding the prohibition base on gender;

IX. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities; and

X. Sections 174 and 176(c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93.

What is a STIP?

The Statewide Transportation Improvement Plan (STIP) is a federally required four-year transportation capital improvement program. Federal regulations require each State to produce a STIP that identifies federal funding by year for scheduled transportation programs receiving Federal Highway Administration (FHWA) or Federal Transit Administration (FTA) funding. MaineDOT produces a STIP every two years to meet the following requirements:

- The State must show Fiscal Constraint, that it is not scheduling more transportation projects for construction, by year, than it reasonably can expect funding for;
- To certify that the State's transportation program conforms to Federal air quality regulations.

Since the state already produces a state initiated biennial Capital Work Plan, the STIP essentially is a formal submittal of FHWA and FTA funded projects, which make up most of the Capital Work Plan, to Federal agencies. Schedule information in the STIP is based on anticipated year of obligation of Federal funds. Although federal obligation of funds is related to project scheduling, projects may have federal obligations years after project construction is complete due to MaineDOT's use of federal Advance Construction regulations. Furthermore, a project that is scheduled for construction in calendar year 2008 may not have any anticipated federal obligations until federal fiscal year 2009 or later. Parties that are interested in schedule information are encouraged to contact MaineDOT for project details instead of relying on the schedule information indicated by the STIP.

A detailed discussion of all FHWA programs referenced in Table 1 such as Surface Transportation Program (STP) or National Highway System (NHS) is available on the internet at http://www.fhwa.dot.gov/federalaid/projects.pdf and similar information for the FTA is available at www.FTA.gov.

Maine Department of Transportation's Statewide Transportation Improvement Program

Federal Fiscal Years 2008-2009-2010-2011

The Maine Department of Transportation's (MaineDOT) Bureau of Planning and Capital Resources Office led the development and preparation of this document which was supported by many other Bureaus and Offices throughout MaineDOT. Maine's Statewide Transportation Improvement Program (STIP) is prepared every two years as directed by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). The document presented here spans Federal Fiscal Years 2008-2009-2010-2011, beginning October 1, 2007.

MaineDOT develops this document in cooperation with the four Metropolitan Planning Organizations and in consultation with 11 Regional Councils as well as Maine municipalities. This STIP is developed in accordance with the terms and provisions of the *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users* (SAFETEA-LU) and the Clean Air Amendments of 1990 and all regulations issued pursuant thereto. Please reference appendix for additional information regarding MaineDOT's compliance with SAFETEA-LU.

The STIP, which is multimodal, includes investments in various modes, such as highways, transit and bicycle facilities. The STIP is the means for implementing the goals and objectives identified in the Department's draft 20 Year Plan *Connecting Maine* and the *MaineDOT Six Year Plan.* The STIP/TIP is financially constrained and the spending plan is based on reasonable projections of available resources based on SAFETEA-LU authorization levels. Table 1 (FHWA) and Table 2 (FTA) provides the estimated utilization of federal funding by funding source for each of the four years of the STIP/TIP. These tables also demonstrate that the program is financially constrained. Only those projects for which construction and operating funds can reasonably be expected to be available are included in the STIP.

Additional copies of this document may be obtained by contacting Bill Croce, Project Manager II, Bureau of Planning, telephone (207) 624-3282, or e-mail bill.croce@maine.gov. A copy can also be found online at www.MaineDOT.gov.

Prepared by
the
Maine Department of Transportation
Bureau of Planning

STIP, Public Involvement and MaineDOT Capital Work Plan.

Although this physical STIP document is being published as a standalone federal document, all projects included in this STIP went through a significant public involvement process and are closely linked to preparation of MaineDOT biennial Capital Work Plans. MaineDOT submits a Capital Work Plan to the Maine State Legislature in support of MaineDOT's biennial budget request prior to preparing a STIP. All projects included in this STIP have either been represented in a MaineDOT Capital Work Plan and/or have received previous federal approval by inclusion in a prior STIP or via an amendment to a prior STIP.

The 2008-2009 Capital Work Plan contains a detailed description regarding MaineDOT's public involvement in transportation programming and details how projects are selected. The 2008-2009 Capital Work Plan also contains a much more detailed discussion of state and federal transportation funding than included in this document. Since the 2008-2009 Capital Work Plan and 2008-2011 STIP are companion publications, parties interested in this STIP should refer to the 2008-2009 Capital Work Plan for more detailed information regarding MaineDOT's transportation programming available at www.MaineDOT.gov. .

STIP Finances

There are three sources of funds for this program, which are discussed in more detail in MaineDOT's 2008-2009 Capital Work Plan available at www.MaineDOT.gov., as follows:

- Federal transportation,
- State transportation,
- Limited local or private.

Federal Funding projections are based upon anticipated authorization levels established under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) and conservative projections of authorization levels beyond SAFETEA-LU. This STIP also assumes a $50 million Grant Anticipation Revenue Vehicle (GARVEE) which has been approved by the Maine State Legislature and Governor. State transportation funding is based upon approved state capital transportation resources in MaineDOT's 2008-2009 Capital Work Plan.

The TIP/STIP for FFY 2008 – 2011 contains over 900 projects in 26 federal funding Categories providing over $520 million in federal funds, which will be matched by over $82 million in state funds and $68 million in local or private funds, for a total program cost of $670 million. Based in large part due to Maine's state budget cycle, uncertainty regarding the next federal funding authorization law and projections about the long-term viability of the federal highway trust fund, this STIP assumes conservative federal funding in 2010 and 2011. However, MaineDOT will prepare an updated STIP prior to the beginning of Federal Fiscal Year 2010 which will incorporate MaineDOT's 2010-2011 state biennial Capital Work Plan and a more reliable forecast of federal resources projected to be available for Maine in 2010 and 2011 than exists today.

OPERATION AND MAINTENANCE

SAFTEA-LU regulations require that the STIP demonstrate that appropriate funds are available to adequately operate and maintain the transportation system as a whole. MaineDOT has $133,500,000 million in FY 2008 and $135,800,000 in FY 2009 available for operating and maintaining Maine's transportation system. The majority of funds used to pay operating and maintenance costs are State funds and included in the State of Maine's biennial budget for state fiscal years 2008-2009.

Maintenance and Operations has 5 region offices which have responsibility for the highway and bridge system. Each region is staffed adequately to accomplish the mission. Augusta headquarters includes the Traffic Engineering and Bridge Maintenance divisions. Traffic Engineering establishes speed limits, establishes standards, maintain traffic signals, highway lighting, interstate signing, striping and pavement markings. Bridge Maintenance has functional responsibility for all bridge issues, operation of moveable bridges, the bridge inspection program, inspection and maintenance of state owned rail lines, and inspection of all private rail lines.

The Bureau has published a Biennial Maintenance Activity Plan (BMAP) for the 2008-2009 biennium to compliment the work detailed in the capital work plan. The 2009 year will be adjusted this winter to account for changes and work that is carried over from 2008. The BMAP includes custodial activities such as sweeping, plowing, brush control and heavy maintenance work such as trucking Maintenance Surface Treatment and restoring ditches. Copies of the BMAP are available through the Bureau of Maintenance and Operations.

Air Quality Conformity Determination

The Clean Air Act requires U.S. Environmental Protection Agency (EPA) to set National Ambient Air Quality Standards (NAAQS) for pollutants considered harmful to public health and the environment. The Clean Air Act established two types of national air quality standards. Primary standards set limits to protect public health, including the health of "sensitive" populations such as asthmatics, children, and the elderly. Secondary standards set limits to protect public welfare, including protection against decreased visibility, damage to animals, crops, vegetation, and buildings.

Areas that do not meet the NAAQS are designated as nonattainment areas and, as a result, are subject to transportation conformity. Maintenance areas are geographic regions that were previously designated as nonattainment, but are now consistently meeting the NAAQS. Transportation conformity requires nonattainment and maintenance areas to demonstrate that all future transportation projects will not hinder the area from reaching and maintaining its attainment goals.

Maine currently has two regions (Portland and Midcoast) designated as maintenance areas for the 8-hour ozone standard and one small area (downtown Presque Isle) designated as a maintenance area for PM_{10}. No carbon monoxide, lead, nitrogen oxides, or sulfur dioxide nonattainment areas have been identified in Maine.

Transportation conformity is required under the Clean Air Act (CAA) and the Clean Air Act Amendments of 1990 (CAAA). The purpose of the transportation conformity process is to ensure that federally funded or approved transportation projects, programs and plans are reviewed and evaluated for their impacts on air quality. Specifically, the projects and other federally funded activities contained in the Long-Range Transportation Plan or STIP may not cause or contribute to new violations, exacerbate existing violations, or interfere with the timely attainment of air quality standards. The transportation conformity process requires the active participation of all agencies (federal, state, and local) that implement federally funded transportation projects and programs within the Portland and Midcoast areas.

The conformity determinations for ozone are found in a separate document entitled “Air Quality Conformity Analysis for the 2008-2011 Statewide Transportation Improvement Program and “Connecting Maine”, Maine’s 2030 Long-Range Transportation Plan.

The Program and Plan satisfy the conformity requirements of the Clean Air Act Amendments of 1990.

Figure 1: Maine's Ozone Maintenance Areas

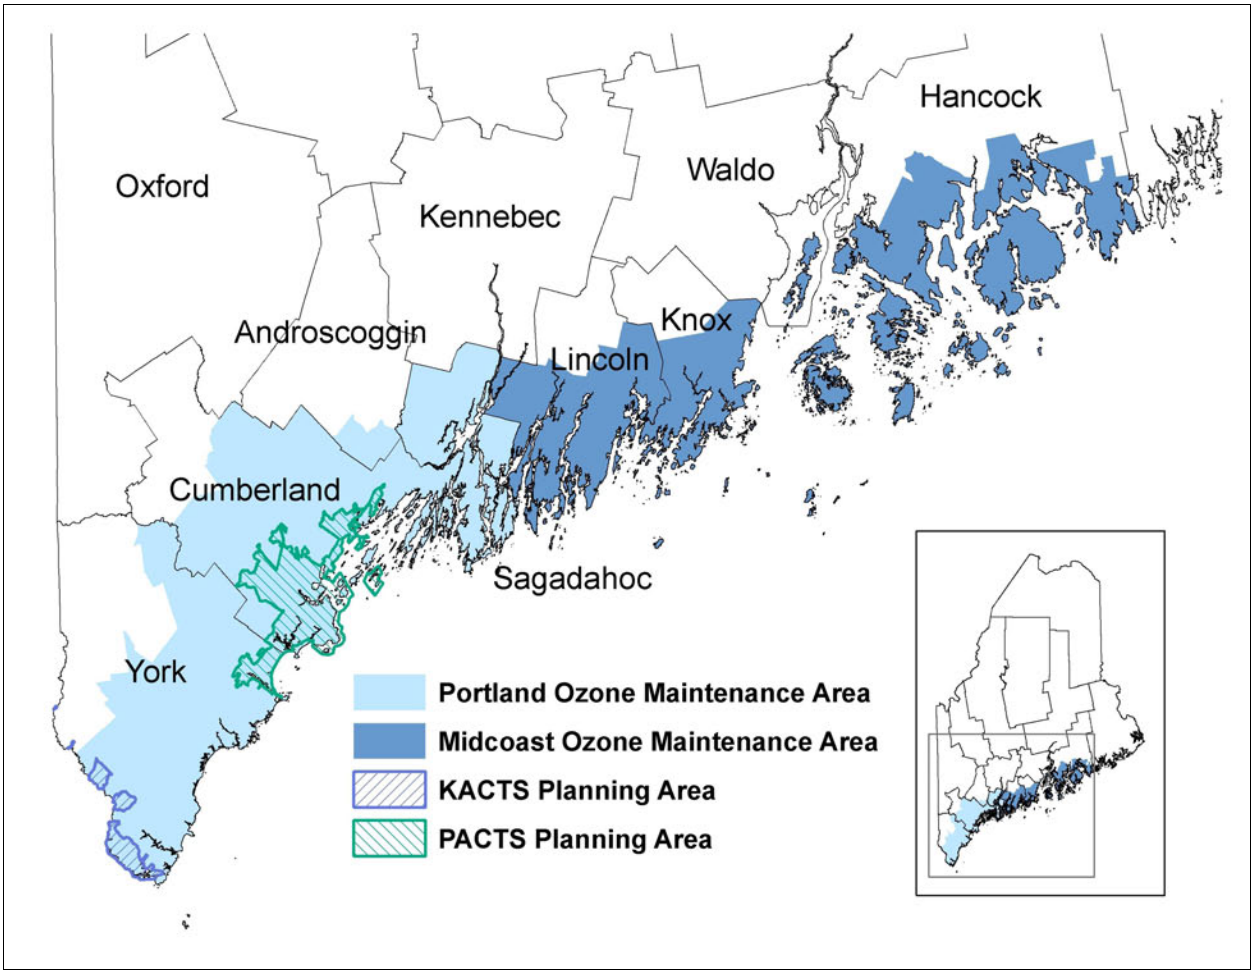

Table 1: Maine's Ozone Maintenance Areas by County and Municipality

Area	County	Towns
Portland	York	Alfred, Arundel, Berwick, Biddeford, Buxton, Dayton, Eliot, Hollis, Kennebunk, Kennebunkport, Kittery, Limington, Lyman, North Berwick, Ogunquit, Old Orchard Beach, Saco, Sanford, South Berwick, Wells, and York
Portland	Cumberland	Brunswick, Cape Elizabeth, Casco, Cumberland, Falmouth, Freeport, Frye Island, Gorham, Gray, Harpswell, Long Island, New Gloucester, North Yarmouth, Portland, Pownal, Raymond, Scarborough, South Portland, Standish, Westbrook, Windham, and Yarmouth
Portland	Androscoggin	Durham
Portland	Sagadahoc	Arrowsic, Bath, Bowdoin, Bowdoinham, Georgetown, Perkins Twp, Phippsburg, Richmond, Topsham, West Bath, and Woolwich.
Midcoast	Lincoln	Alna, Boothbay, Boothbay Harbor, Bremen, Bristol, Damariscotta, Dresden, Edgecomb, Monhegan Island Plt, Newcastle, Nobleboro, South Bristol, Southport, Waldoboro, Westport, and Wiscasset
Midcoast	Knox	Camden, Cushing, Criehaven Twp, Friendship, Isle Au Haut, Matinicus Isle Plt, Muscle Ridge Shoals Twp, North Haven, Owls Head, Rockland, Rockport, South Thomaston, St. George, Thomaston, Vinalhaven, and Warren
Midcoast	Waldo	Isleboro
Midcoast	Hancock	Bar Harbor, Blue Hill, Brooklin, Brooksville, Cranberry Isles, Deer Isle, Frenchboro, Gouldsboro, Hancock, Lamoine, Mt. Desert, Sedgwick, Sorrento, Southwest Harbor, Stonington, Sullivan, Surry, Swans Island, Tremont, Trenton, and Winter Harbor

Grand Totals	**$209,443,269.95**	**$135,433,346.14**	**$38,861,186.05**	**$40,112,322.23**	**$423,850,124.37**

The above chart demonstrates that this is a Fiscally Constraint STIP by year by fund source. It assumes at least 86% anticipated Obligation Authority for FFYs 2008 and 2009. Anticipated Obligation amounts reflect MaineDOT's flexibility given unobligated balances of fund sources and transfer authority. 2008 totals also reflect MaineDOT's remaining FF Y 2007 Obligation Authority at the printing of this draft STIP. The final STIP will reflect remaining FFY 2007 Obligations made during September 2007. 2008 totals also reflect MaineDOT's use of Advance Construction. Although MaineDOT's actual 2008 obligations cannot exceed the amount of Maine's FFY 2008 Obligation Authority, MaineDOT may sustain Advance Construction above projected FFY Obligation Authority based on anticipated non-federal resources available. Depending upon individual project schedules and Advance Construction management, up to $50 million in FFY 2008 projects may actually be obligated in 2009 or beyond.

MPO TIP Letters of Approval
SAFETEA-LU Compliance Requirements

Maine Department of Transportation
Statewide Transportation Improvement Program
Federal Fiscal Years 2008-2009-2010-2011
September 2007

GLOSSARY OF TERMS AND ABBREVIATIONS

AC - **A**dvance **C**onstruction, an innovative FHWA financing technique allowing a State to initiate a project using non-federal funds while preserving the project's future eligibility for Federal-aid funds.

AVCOG - **A**ndroscoggin **V**alley **C**ouncil **o**f **G**overnments

BR or BH - **B**ridge **R**eplacement or **B**ridge Re**h**abilitation, a federal funding source for projects to improve bridges that are structurally deficient and/or functionally obsolete.

CAA – Clean **A**ir **A**ct - The Clean Air Act of 1970 is the comprehensive Federal law that regulates air emissions from area, stationary, and mobile sources.

CAAA- Clean **A**ir **A**ct **A**mendments **-** Clean Air Act as amended in 1990.

CE - **C**ategorical **E**xclusion, a required NEPA document for project activity meeting certain definitions and not having significant environmental effects.
OR
CE - Construction **E**ngineering, all project engineering work following the beginning of construction.

CMAQ - **C**ongestion **M**itigation/Air Quality, a federal funding source for eligible projects benefiting air quality.

CON - Construction phase of project work.

EA - **E**nvironmental **A**ssessment, a required NEPA document for project activity that does not meet CE definitions, but that likely will not require development of a full, formal EIS. The EA typically ends with a FONSI.

EIS - **E**nvironmental **I**mpact **S**tatement, a required NEPA document for project activity deemed to have significant environmental impacts. An EIS is the result of a comprehensive study, undertaken on only a few large projects.

EMDC - **E**astern **M**aine **D**evelopment **C**orporation

ER – **E**mergency **R**elief Program

FBD - **F**erry **B**oat **D**iscretionary, a federal funding source for ferry boats and terminal facilities

FEMA - **F**ederal **E**mergency **M**anagement **A**gency

FFC – **F**ederal **F**unctional **C**lassification

FHWA - **F**ederal **H**ighway **A**dministration

FTA - **F**ederal **T**ransit **A**dministration

FFY - **F**ederal **F**iscal **Y**ear (Begins October 1st)

GPCOG - **G**reater **P**ortland **C**ouncil **o**f **G**overnments

Highway Improvement - Major rehabilitation or reconstruction of a roadway

IM - Interstate **M**aintenance, a federal funding source for the federal aid interstate system

ITS – **I**ntelligent **T**ransportation **S**ystems, Integration or Research and Development

MPO - **M**etropolitan **P**lanning **O**rganization, a federally designated planning organization responsible for carrying out a continuous, comprehensive, and cooperative transportation planning process for urbanized areas with populations of 50,000 or more. Maine has 4 MPOs:

ATRC - **A**ndroscoggin **T**ransportation **R**esource **C**enter, which is affiliated with AVCOG
BACTS - **B**angor **A**rea **C**omprehensive **T**ransportation **S**ystem, which is affiliated with EMDC
KACTS - **K**ittery **A**rea **C**omprehensive **T**ransportation **S**tudy, which is affiliated with SMRPC
PACTS - **P**ortland **A**rea **C**omprehensive **Trans**portation Committee, which is affiliated with **GPCOG** **G**reater **P**ortland **C**ouncil **O**f **G**overnments

NCPD - **N**ational **C**orridor **P**lanning and **D**evelopment Program

NH - **N**ational **H**ighway, a federal funding source for transportation projects on the Interstate System and most other roadways classified Principal Arterial

Obligation - The commitment of federal funds to a project prior to reimbursement of state/local expenditures.

PCE - **P**re**c**onstruction **E**ngineering, all aspects of project engineering that come before the construction phase.

PE - **P**reliminary **E**ngineering, early project engineering, usually preceding the completion of preliminary design plans; or as used by FHWA, all project engineering prior to beginning construction

PIN - **P**roject **I**dentification **N**umber

ROW or **R/W** - **R**ight **o**f **W**ay phase of project work done in conjunction with land acquisition or easements.

SMRPC – Southern Maine Regional Planning Commission

STIP - **S**tatewide **T**ransportation **I**mprovement **P**rogram

STP - **S**urface **T**ransportation **P**rogram, a federal funding source for transportation projects associated with any public highway segment not functionally classified as "rural minor collector", or "local road"

Re: ATRC 2008-2011 TIP

Dear Mr. Perry;

Enclosed is the ATRC 2008-2011 TIP. The ATRC at its Policy Committee Meeting on August 23, 2007 approved the TIP. The TIP was placed out for public comment for 30 days, in accordance with our Public Participation Policy, and received no comments.

If you should have any questions, please feel free to contact me at (207) 783-9186.

Sincerely,

Don Craig
Director

BACTS
Bangor Area Comprehensive Transportation System

August 24, 2007

Dale Doughty, Acting Director
MaineDOT Bureau of Planning
16 State House Station
Augusta, ME 04333-0016

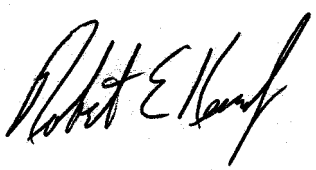

Dear Dale,

The BACTS Policy Committee approved the Final BACTS FY 2008-2011 Transportation Plan (TIP) at their August 21, 2007 meeting.

The BACTS FY 2008-2011 TIP meets the requirements of SAFETEA-LU, and was approved following BACTS public participation plan which requires a 30-day comment period. No public comments were received by BACTS on this TIP.

If you have any questions let me know.

Sincerely,

Robert Kenerson, P.E.
Director, BACTS

PACTS

Portland Area Comprehensive Transportation Committee

Destination Tomorrow

Linking Our Communities
Advancing Our Region

August 16, 2007

Dale F. Doughty
Acting Director
MaineDOT Bureau of Planning
State House Station 16
Augusta, Maine 04333

Dear Dale,

I am writing to inform you that on August 16, 2007 the PACTS Policy Committee voted to adopt the 2008-2011 PACTS Transportation Improvement Program (TIP). The TIP was developed using reasonable assumptions of available funding, thus making it a fiscally constraint program. By adopting the TIP, PACTS (the Metropolitan Planning Organization for the region) certifies that the transportation planning process is in compliance with all SAFETEA-LU and other Federal requirements which include but are not limited to:

- Inclusion of early and continuing public involvement;
- Consistency with the MPOs Long Range Transportation Plan; and
- Was developed in cooperation with State and public transit operators.

We would like to acknowledge MaineDOT's considerable input in organizing this complex set of programming actions. Also we would like to thank the Department for all their hard work over the last few months.

Sincerely,

John Duncan
Director

August 24, 2007

Dale Doughty, Acting Director
MaineDOT Bureau of Planning
16 State House Station
Augusta, ME 04333-0016

Dear Dale,

At the Committee's meeting on June 23, 2007, the Kittery Area Metropolitan Planning Organization (KACTS) approved the MPO's 2008-2011 Transportation Improvement Program (TIP).

The TIP meets the requirements of SAFETEA-LU, and was approved following the public participation items included in the KACTS Public Involvement Procedure, including the required public comment period and Public Information Meeting. The Committee received no public comments on the TIP.

Please give me a call if you have any questions regarding the Committee's action, or need any further information.

Sincerely,

Tom Reinauer

MaineDOT Compliance with SAFETEA-LU Requirements
August 24, 2007

1.) Metropolitan Transportation Plan Cycles
Revised provision: amended 23 U.S.C. 135/49 U.S.C. 5304 (f)(1)

Objective: Statewide transportation plans shall be updated at least every four years in air quality non-attainment and maintenance areas, and at least every five years in attainment areas.

Response: MaineDOT is in the process of completing its new Long Range Plan, entitled *Connecting Maine*, which covers the period 2007 through 2030. MaineDOT intends to update the long range plan every four years.

2.) TIP Cycles and Scope
Revised provision: amended 23 U.S.C. 134/49 U.S.C. 5303 (j)(1)(D)

Objective: The TIP must be updated at least every four years and must contain at least four years of projects and strategies.

Response: MaineDOT's TIPs and STIP cover four years and are updated every two years. MaineDOT's TIPs include four years of anticipated obligations. Since MaineDOT utilizes Advance Construction for the majority of FHWA funded projects, many of the projects in the TIPs and STIPs, particularly for the first year, predominantly appear as construction complete at the time the STIP or TIPs are published. MaineDOT is choosing to be fiscally conservative in the outwears of the STIP/TIP cycle based on guidance from FHWA, AASHTO and other national transportation stakeholders regarding the future viability of the Federal Highway Trust Fund. MaineDOT has updated the TIPs and STIP for FHWA and FTA approval in 2007 and will update it in 2009.

3.) Environmental Mitigation
Revised Provision: 23 U.S. C. 134 (i)(2)(B) and 23 U.S.C. 135(f)(4). Identical provisions for transit appear in the amended 49 U.S.C. 5303(i)(2)(B) and 49 U.S.C. 5304(f)(4).

Objective: Statewide transportation plans must include a discussion on types of potential environmental mitigation activities, to be developed in consultation with Federal, State and Tribal wildlife, land management, and regulatory agencies.

Response: MaineDOT develops an environmental mitigation plan for each project that requires the approval of the Federal Highway Administration. *Connecting Maine*, MaineDOT's long range plan for the years 2007-2030, identifies several strategies under its objective to promote environmental and cultural stewardship at the federal, state, local and grassroots levels.

4.) New Consultations
New or revised provision: 23 U.S.C. 134/49 U.S.C. 5303(g) and (i)(4) and (j)(1)(C) and 23 U.S.C. 135/49 U.S.C. 5304(f)(2) and (f)(2)(D) and (g)(2).

Objective: MaineDOT must consult, as appropriate, with State and local agencies responsible for land use management, natural resources, environmental protection, conservation, and historic preservation in developing its long-range transportation plan.
Response: MaineDOT utilized an extensive and unprecedented consultation process in the development of its long range plan. Beginning with its partnerships with the state's eleven Regional Councils, MaineDOT contracted in 2004 for them to each develop a Regional Transportation Assessment through a public participation process. A series of seven Regional Forums were held statewide in 2005 to inform the public of regional and transportation needs, and of funding concerns. Upon generating a preliminary draft long range plan, a series of about twenty public meetings were held statewide to present the Regional Councils' and MaineDOT's proposed strategic investment plan, and a cost-constrained plan with funding gaps clearly identified. MaineDOT is now in the process of completing its draft long range plan for a final public comment period in the fall of 2007.

During the planning and project development process, MaineDOT consults with agencies that include the U.S. Environmental Protection Agency, the Maine Department of Environmental Protection, the Maine State Planning Office, the Maine Department of Conservation and the Maine Historic Preservation Commission.

5.) Consistency of the Transportation Plan with Planned Growth and Development Patterns
New and revised provision: 23 U.S.C. 134/49 U.S.C. 5303(h)(1) and 23 U.S.C. 135/49 U.S.C. 5304 (d)(1).

Objective: Revises the previous planning factor related to environment to add "promoting consistency between transportation improvements and State and local planned growth and economic development patterns."

Response: MaineDOT is working with the State Planning Office and Maine's eleven Regional Councils on several fronts regarding land use and transportation to ensure that municipalities are aware of and working to achieve balance between planned growth and transportation infrastructure needs. Examples of these activities include:

- MaineDOT and the State Planning Office (SPO) collaborated on the SPO's proposed legislative rule update regarding comprehensive land use planning. One of the keystones of the new rule is the encouragement of municipalities to develop multi-municipal transportation plans and coordination with MaineDOT's Sensible Transportation Policy Act.
- MaineDOT is also partnering with the SPO and others in developing its proposed rule update regarding the Sensible Transportation Policy Act (STPA). STPA further encourages communities to work together and to develop coordinated land use plans to maximize efficient use of Maine's transportation infrastructure. The proposed STPA rules, which will be considered by the Maine legislature in 2008, also provide incentives for communities to generate and implement coordinated land use and transportation plans by providing project candidate preference and reduced local share costs.
- MaineDOT is also working with the Regional Councils to develop *Multi Modal Corridor Management Plans* (*MMCMP*s)with the intent of educating communities and the general public of the need to coordinate land use with transportation so as to

maximize efficiencies of both, while maintaining a high quality of life. The *MMCMP*s will identify land use as well as transportation infrastructure needs in a prioritized manner.

6a.) Transportation System Safety Component

New provision: 23 U.S.C. 134/49 U.S.C. 5303(h)(1) and 23 U.S.C. 135/49 U.S.C. 5304 (d)(1).

Objective: SAFETEA-LU calls for the safety of the transportation system to be a stand-alone planning factor, signaling an increase in importance from prior legislation, in which security was coupled with safety in the same planning factor.

Response: Safety is consistently a top priority for transportation planning at MaineDOT. Safety is one of the five goals outlined in *Connecting Maine*, MaineDOT's long range plan. Several objectives and strategies are identified in the plan, both for cost-constrained and non-constrained scenarios.

6b.) Transportation System Security – Security Only Component

New provision: 23 U.S.C. 134/49 U.S.C. 5303(h)(1) and 23 U.S.C. 135/49 U.S.C. 5304 (d)(1)

Objective: SAFETEA-LU calls for the security of the transportation system to be a stand-alone planning factor, signaling an increase in importance from prior legislation, in which security was coupled with safety in the same planning factor.

Response: As wit safety, security is one of the five goals outlined in *Connecting Maine*, MaineDOT's long range plan. Several objectives and strategies are identified in the plan, both for cost-constrained and non-constrained scenarios.

7.) Operational and Management Strategies

Revised provision: Amended 23 U.S.C. 134(i)(2)(D) and 49 U.S.C. 5303(i)(2)(D).

Objective: Statewide transportation plans shall include operational and management strategies to improve the performance of the existing transportation facilities to relieve vehicular congestion and maximize the safety and mobility of people and goods.

Response: MaineDOT's upcoming long range transportation plan contains goals, objectives and strategies to enhance the movement of people and goods in and through the state. Performance-based strategies are provided for both a cost-constrained and fully funded scenarios.

8.) Participation Plan

Revised Provision: 23 U.S.C. 134/49 U.S.C. 5303(i)(5), (i)(6), and (j)(4) and 23 U.S.C. 135/49 U.S.C. 5304(f)(3) and (g)(3).

Objective: SAFETEA-LU requires states to develop Public Participation Plans in consultation with all interested parties. The state must develop and utilize a "Participation Plan" that provides reasonable opportunities for interested parties to comment on the content of the MTP and TIP. Further this "Participation Plan" must be developed "in

consultation with all interested parties." This consultation requirement is intended to afford parties who participate in the transportation planning process specific opportunity to comment on the plan prior to its approval.
Response: MaineDOT strives to provide the public and transportation stakeholders with reasonable opportunities to comment on transportation plans and programs at several points in the transportation planning process. As previously noted under item number 4 (New Consultations), MaineDOT has used an extensive public participation plan through the Regional Councils (RCs), from development of Regional Transportation Assessments for each RC, seven regional forums and over twenty public consultation meetings in the development of *Connecting Maine*. MaineDOT also utilizes an extensive public participation process in the development of its *Six Year Plan* and *Biennial Capital Work Plan*.

9.) Visualization Techniques in Plan and Program Development

Revised Provision: Amended 23 U.S.C. 134(i)(5)(C)(ii) 49 U.S.C. 5303(i)(5)(ii) and 49 U.S.C. 5304(f)(3)(B)(ii).

Objective: As part of the Long Range Plan and TIP development, the MPO shall employ visualization techniques. Visualization techniques facilitate increased public participation and understanding through their clear and easily accessible formats such as maps, pictures, and/or displays.

Response: MaineDOT's Long-Range Plan, *Connecting Maine*, contains colorful graphs and maps to convey information about Maine's transportation needs and how MaineDOT is working to address those needs. MaineDOT also intends to develop GIS-based maps to illustrate the Strategic Investment Plans developed by each Regional Council and also to include the upcoming Multi-Modal Corridor Management Plan recommendations.

10.) Publication of Transportation Plans and TIPs
Revised provision: Amended 23 U.S.C. 134(i)(6) on plans and 23 U.S.C. 134(j)(7)(a) on TIP, and for transit amended 49 U.S.C. 5303(i)(6) and 49 U.S.C. 5303(j)(7)(a).

Objective: The state shall publish or otherwise make available for public review its transportation plans and TIP "including (to the maximum extent practicable) in electronically-accessible formats and means, such as the World Wide Web."

Response: MaineDOT and Maine's MPOs make their draft TIPs available for at least 30 days for public comment prior to formal adoption. MaineDOT also makes copies of the STIP available for comment on the web and at Maine's repository libraries. It should be noted that Maine's TIP and STIP process represent the tail end of MaineDOT's *Biennial Capital Work Plan* which is driven by its long range plan and *Six Year Plan*, both of which are also published and posted on the MaineDOT website. MaineDOT's *Biennial Capital Work Plan* involves over 12 months of municipal coordination and public input. With the exception of emergencies, every project contained in MaineDOT's publications is publicly available for comment for at least five months.

11.) Annual Listing of Obligated Projects

Revised provision: 23 U.S.C. 134/49 U.S.C. 5303(j)(7)(B) and 23 U.S.C. 135/49 U.S.C. 5304(g)(4)(B)

Objective: SAFETEA-LU specifies that the development of the annual listing "shall be a cooperative effort of the State, transit operator, and MPO" and also shall include two new project types, "investments in pedestrian walkways and bicycle transportation facilities" for which Federal funds have been obligated in the preceding year.

Response: MaineDOT develops annual listings and publishes all transportation projects in its *Biennial Capital Work Plan*.

12.) Congestion Management Process in TMA
Maine has no Transportation Management Areas (TMAs).

13.) TMA Certification Cycle
Maine has no TMAs.

14.) Coordinate Public Transit/Human Services Transportation Plan
New provision: 23 U.S.C. 134/49 (i)(5)(A) and 49 U.S.C. 5303 (i)(5)(A). (1) Special Needs of Elderly Individuals and Individuals with Disabilities [49 U.S.C. 5310(d)(2)(B)(i) and (ii)]; (2) Job Access and Reverse Commute [49 U.S.C. 5316(g)(3)(A) and (B)]; and (3) New Freedom [49 U.S.C. 5317(f)(3)(A) and (B)].

Objective: As a condition for receiving formula funding under certain FTA programs, proposed projects must be derived from a locally developed public transit human services transportation plan. The plan must have been developed through a process that included representatives of public, private and non profit transportation and human services providers, as well as the public.

Response: Maine's locally coordinated plan, called the *Biennial Operations Plan*, was adopted on June 26, 2007. The description of how these funds are distributed is found on page 6 of the Executive Summary. In 2006 and early 2007, Maine conducted a series of eight meetings across the state to solicit public participation. Those affected by, and the service providers to, the disabled, elderly and low income communities were specifically invited to these meetings. MaineDOT's funding allocations, methods of distribution and upcoming projects and priorities were presented at the meetings. Extensive input was obtained at these well attended meetings. After the initial meetings were held to receive input, a second series of eight meetings was held to finalize the plan for each region. The Regional needs were prioritized and are presented in the final plan.

15.) Cost Constraints
New or revised provision: 23 U.S.C. 134/49 U.S.C. 5303(i)(2)(C), (j)(1)(C), (j)(2)(C); and (j)(3)(D) and 23 U.S.C. 135/49 U.S.C. 5304(f)(5); (g)(4)(E); and (g)(4)(F).

Objective: Review and reaffirm fiscal constraint of transportation plans and programs as they are updated or amended.

Response: *Connecting Maine*, MaineDOT's upcoming long range plan, provides a cost constrained strategic investment plan. The document also identifies the funding gap that must be addressed in order to achieve the overall performance-based strategic investment goals.

MaineDOT has entered a new era of programming projects on a cost-constrained basis. All publications will now be cost-constrained. Additionally, MaineDOT updates the MPO TIPs and STIP every two years, and MaineDOT and MPOs review TIPs at least quarterly to ensure that they remain fiscally constrained. MaineDOT's internal Work Plan Management Process reviews all projects monthly to review their financial status and progress in order to identify supplemental funding needs likewise to ensure fiscal constraint. Decisions are then made as to whether a project should be continue to move forward or if other actions are required to remain fiscally constrained overall.

Notes
